Fiscal Year 2011-12 Fact Sheet · District 9

Mid-Year Update

DPW is responsible for the care and maintenance of San Francisco's streets and much of its infrastructure. The department designs, builds, resurfaces and cleans streets; plants and maintains city street trees; designs, constructs and maintains city-owned facilities; conducts sidewalk and roadway inspections, constructs curb ramps, provides mechanical and manual street cleaning, removes graffiti from public property; and partners with the diverse neighborhoods in San Francisco. DPW serves residents, merchants and visitors 24 hours a day and seven days a week with a workforce of approximately 1,200 employees.

Volunteer Opportunities sfdpw.org/volunteer

Community Clean Team June 9, 2012, 9:00am-12pm
Location: Fairmount Elementary
Clean Team dedicates a month to each district where volunteers remove litter and graffiti, plant trees, and help take care of our busy streets, schools, and community gardens.

Starbucks Day of Giving April 28th, 8am-12pm
Location: San Jose Ave South & the Mayor's Lavender Garden
Volunteers will help beautify the commercial area by keeping trees healthy and paint over graffiti on trash cans.

Adopt A Street is a partnership between the City and its merchants and residents to adopt a street or an area and take responsibility for keeping it clean.

Street Parks Program is a partnership between DPW and its non-profit partners (San Francisco Parks Trust and Street Parks Youth) to support community-managed public open-space gardens.

Graffiti Watch is a program to keep graffiti off of public property in San Francisco. DPW provides free training and supplies.

Urban Gleaning Program allows residents to donate from their fruit trees or garden to help DPW collect food for distribution to communities in need in San Francisco.

Supervisorial District 9
(As of 12/23/2011; **Count** and % by complaint type)

Community Corridors Partnership Program

The Community Corridors Partnership Program is a collaboration between the City and property owners and merchants to improve the quality of life on busy San Francisco streets by cleaning sidewalks, removing graffiti, providing education and outreach; and repairing streets and sidewalks. The program's Spruce Up by Sun Up Campaign includes early morning inspections of streets in the Corridors program. The visits ensure that city ordinances that affect the quality of life on our streets are being met to keep streets in the Community Corridors Partnership Program clean and inviting for residents, customers and other visitors.

District 9 Corridors:

- 24th St (Potrero - Valencia)
- Potrero (Cesar Chavez - 20th)
- Mission St (13th – Cesar Chavez)
- Van Ness Ave (18th – Mission, 22nd – Cesar Chavez)

Streets and Paving sfdpw.org/streets

DPW paves city streets and builds and repairs sidewalks, curbs, curb ramps, and parking strips to provide safe, smooth, and accessible streets. DPW's paving strategy also includes Flex Seal, an application made from recycled tire rubber that can cost-effectively extend the life of our streets. Candidates for street repaving are subject to utility clearances/coordination and the availability of funding.

Upcoming & Active projects: 24th Street Pavement Renovation and Sewer Replacement (Potrero to Guerrero); Mission Street (16th to Cesar Chavez)

2011 Road Repair and Street Safety Bond

sfdpw.org/streetsbond

In November 2011, San Francisco residents passed the $248 million Road Repair & Street Safety Bond. It will repave streets; repair deteriorating bridges, overpasses and staircases; improve streetscapes for pedestrian and bicyclist safety; improve traffic flow on local streets; and install sidewalk and curb ramps.

There will be paving improvements through the bond to over 1,400 street segments in every neighborhood across San Francisco (in addition to the 900 street segments through other funding sources for a total of 2,300 blocks improved over three years). The bond is expected to create over 1,000 jobs.

Sidewalk Inspection and Repair (SIRP) sfdpw.org/trees

DPW works with property owners to keep their sidewalks free of defects to improve safety and comply with City and State codes. The SIRP program accomplishes this by coordinating sidewalk inspections, repairs and improvements.

- Midway through 2011-12, DPW's proactive Sidewalk Inspection and Repair Program has repaired 43,517 square feet of sidewalk in District Nine.

Capital Projects

sfdpw.org/projects

DPW delivers major capital projects through planning, design, regulatory approval, and the construction processes. The department delivers a variety of projects on behalf of City agencies. Major capital projects are funded through local, state or federal public financing programs, and occasionally in combination with local matching or private funds. DPW delivers complex capital projects with aggressive schedules and extensive review and approval processes.

Cesar Chavez Streetscape Improvement Project DPW is leading a multi-agency initiative to revitalize Cesar Chavez, between Guerrero and Hampshire streets. Through a community supported planning process, improvements to this corridor will include sewer upgrades, landscaping, widened sidewalks, pedestrian refuge, upgrades to pedestrian and traffic lighting, bulb-outs, bike lanes, roadway resurfacing, and other features that will make this street safe and inviting. Sewer improvements are underway and streetscape improvements will begin in fall 2012.

Folsom Streetscape Improvement Project DPW is designing and will manage this project, which will provide traffic calming and improve safety and comfort for pedestrians, bicyclists and transit users. The project will also add new bulb-outs and street trees, perform a four to three lane conversion, and resurface Folsom Street between 19th Street and Cesar Chavez Street. Construction scheduled to begin in 2012.

Fire Station 42 DPW will manage the design and construction of Fire Station 42 renovations, 2430 San Bruno Avenue, and Fire Station 32 renovations, 194 Park Street. These projects are part of the Earthquake Safety and Emergency Response (ESER 1) bond.

Bridge Preventative Maintenance Program - Preventative maintenance of bridges on Highland Avenue, Richland Avenue, Evans Avenue, Bayshore Boulevard near Cesar Chavez, and Richland Avenue continue and are near completion

Maintenance Program - Preventative maintenance of bridges on Highland Avenue, Richland Avenue, Evans Avenue, Bayshore Boulevard near Cesar Chavez, and Richland Avenue continue and are near completion

17th & Folsom Park Since January 2010, the City has been working with the community to develop a park on a portion of a parking lot at the corner of 17th and Folsom Streets. Conceptual designs are complete and include an interactive play area, community garden, outdoor classroom, and amphitheatre. DPW, the Recreation and Park Department, Planning Department, and community partner, PODER, will be working with the community over the next year to complete the final design.

Greening and Beautification

sfdpw.org/trees

DPW plants and maintains street trees and provides median maintenance.

DPW maintains:*

All 41 trees in the medians of:

- Lyell St
- San Jose Ave
- Virginia Ave

and 2,103 trees along:

- 24th St
- Alemany Blvd
- Cesar Chavez St
- Cortland Ave
- Folsom St
- Guerrero St
- Harrison St
- Mission St
- San Bruno Ave
- San Jose Ave
- Silver St
- S Van Ness Ave
- Valencia St
- Virginia Ave
- Winfield St

DPW maintains the medians along Guerrero, San Jose Ave, and Cesar Chavez incuding the Memorial Tree.

DPW has issued 93 permits to property owners to plant and remove trees in District 9.

Sidewalk Landscaping

Year to date, in District 9, DPW has issued 31 permits to property owners to install sidewalk landscaping.

*Starting Fiscal Year 2011-12, in order to standardize maintenance responsibility of trees, DPW will begin transferring stewardship of some trees to property owners. Visit our website for more information.
