

Fiscal Year 2011-12 Fact Sheet · District 6 Mid-Year Update

DPW is responsible for the care and maintenance of San Francisco's streets and much of its infrastructure. The department designs, builds, resurfaces and cleans streets; plants and maintains city street trees; designs, constructs and maintains city-owned facilities; conducts sidewalk and roadway inspections, constructs curb ramps, provides mechanical and manual street cleaning, removes graffiti from public property; and partners with the diverse neighborhoods in San Francisco. DPW serves residents, merchants and visitors 24 hours a day and seven days a week with a workforce of approximately 1,200 employees.

Volunteer Opportunities sfdpw.org/volunteer

Community Clean Team April 21, 2012, 9:00am-12pm

Location: Union Square

Clean Team dedicates a month to each district where volunteers remove litter and graffiti, plant trees, and help take care of our busy streets, schools, and community gardens.

Starbucks Day of Giving April 28th, 8am-12pm

Location: Market St (13th - Embarcadero); 100 Volunteers Needed
Volunteers will help beautify the commercial area by caring for and maintaining trees.

Adopt A Street is a partnership between the City and its merchants and residents to adopt a street or an area and take responsibility for keeping it clean.

Street Parks Program is a partnership between DPW and its non-profit partners (San Francisco Parks Trust and Street Parks Youth) to support community-managed public open-space gardens.

Grffiti Watch is a program to keep graffiti off of public property in San Francisco. DPW provides free training and supplies.

Urban Gleaning Program allows residents to donate from their fruit trees or garden to help DPW collect food for distribution to communities in need in San Francisco.

Community Corridors Partnership Program

The Community Corridors Partnership Program is a collaboration between the City and property owners and merchants to improve the quality of life on busy San Francisco streets by cleaning sidewalks, removing graffiti, providing education and outreach; and repairing streets and sidewalks on select merchant corridors. The program's [Spruce Up by Sun Up Campaign](#) began in September and includes early morning inspections of streets in the Corridors program. The visits ensure that city ordinances that affect the quality of life on our streets are being met to keep streets in the Community Corridors Partnership Program clean and inviting for residents, customers and other visitors.

District 6 Corridors:

- 16th St (Valencia – Folsom)
- Mission St (13th -18th)
- Polk St (California - O'Farrell)
- Mission St (McCoppin – 10th, Otis and 13th)
- Geary (Mason - VanNess)
- Potrero (15th - 20th)
- Van Ness Ave (Mission - Greenwich)

Streets and Paving sfdpw.org/streets

DPW paves city streets and builds and repairs sidewalks, curbs, curb ramps, and parking strips to provide safe, smooth, and accessible streets. DPW's paving strategy also includes Flex Seal, an application made from recycled tire rubber that can cost-effectively extend the life of our streets. Candidates for street repaving are subject to utility clearances/coordination and the availability of funding.

Upcoming paving projects: Ellis & Eddy Streets (between Van Ness & Market)

DPW Service Requests for FY 2011-12
Supervisorial District 6

(As of 12/23/2011: Count and % by complaint type)

2011 Road Repair and Street Safety Bond sfdpw.org/streetsbond

In November 2011, San Francisco residents passed the \$248 million Road Repair & Street Safety Bond. It will repave streets; repair deteriorating bridges, overpasses and staircases; improve streetscapes for pedestrian and bicyclist safety; improve traffic flow on local streets; and install sidewalk and curb ramps.

There will be paving improvements through the bond to over 1,400 street segments in every neighborhood across San Francisco (in addition to the 900 street segments through other funding sources for a total of 2,300 blocks improved over three years). The bond is expected to create over 1,000 jobs.

Sidewalk Inspection and Repair

sfdpw.org/SIRP

The Sidewalk Inspection and Repair Program works with property owners to keep their sidewalks free of defects to improve safety and comply with City and State codes. The SIRP program accomplishes this by coordinating sidewalk inspections, repairs and improvements.

- Midway through 2011-12, DPW's proactive Sidewalk Inspection and Repair Program has repaired 19,724 square feet of sidewalk in District Six. Upcoming inspections will be conducted in District Six within a 22 square block area.

Capital Projects sfdpw.org/projects

DPW delivers major capital projects through planning, design, regulatory approval, and the construction processes. The department delivers a variety of projects on behalf of City agencies. Major capital projects are funded through local, state or federal public financing programs, and occasionally in combination with local matching or private funds. DPW delivers complex capital projects with aggressive schedules and extensive review and approval processes.

2nd Street Streetscape Improvements

DPW is undergoing the planning phase for streetscape improvements, from Market Street to King Street.

17th and Folsom Park

On behalf of the Recreation and Park Department, DPW is managing the design and construction of this brand new park that will include a large multi-use playfield, a pedestrian plaza, a parking lot, landscaping and other site amenities.

Better Market Street Project

The Better Market Street Project aims to revitalize Market Street from Octavia Boulevard to The Embarcadero and reestablish the street as the premier cultural, civic and economic center of San Francisco and the Bay Area. The new design should create a comfortable, universally accessible, sustainable, and enjoyable place that attracts more people on foot, bicycle and public transit to visit shops, adjacent neighborhoods and area attractions.

Fire Stations 35 and 36

DPW will manage the design and construction of Fire Station 35, Fire Boat Station, and Station 36. Seismic renovations are part of the Earthquake Safety and Emergency Response (ESER) bond.

Hastings Streetscape Master Plan

On behalf of Hastings College, DPW prepared a Streetscape Master Plan for two blocks of the college campus along McAllister Street, from Leavenworth to Larkin. The plan includes street improvements, landscaping and public art.

Moscone Center Capital Improvement Program

On behalf of the San Francisco Tourism Improvement District Management Corporation, DPW is managing improvements to the Moscone Center's North, South and West buildings. The project includes upgrading finishes; remodeling of 24 restrooms; and installation and upgrades of way finding signage, life safety, HVAC systems and wireless communication. The last of five phases began on March 16, 2012 and is scheduled to be completed on May 15th, 2012. The project is currently on schedule, on budget and is anticipated to achieve a LEED EBOM Gold rating designation.

Public Safety Building

DPW is implementing the Earthquake Safety and Emergency Response Bond, which includes the Public Safety Building in Mission Bay. The site will encompass the SFPD headquarters, the relocated Southern District Police Station, neighborhood Fire Station 4, and rehabilitation of the decommissioned Fire Station 30 on site for use by the Fire Department and community.

SFPUC Headquarters, 525 Golden Gate Avenue

DPW is managing the design and construction of a 13-story office building that will serve as the new headquarters for the SFPUC. The new 277,000-sq. ft. building is slated to achieve a LEED Platinum rating. Currently in construction. Scheduled completion in Spring 2012.

SOMA Alleyways Improvement Projects

DPW is making major renovations to the South of Market alleyways that include the addition of public art and improvements to sidewalks, lighting, and landscaping. The project will serve to beautify the areas and improve public safety and accessibility.

SOMA West Ancillary Improvements Project

Sewer main and lateral replacement work, decorative asphalt paving, new raised cross-walks, some curb and sidewalks, landscape work, tree planting, street lighting and electrical work, and landscape maintenance.

War Memorial Veterans Building

On behalf of the War Memorial & Performing Arts Center, DPW is providing planning, design and construction management services for the Veterans Building Seismic Upgrade and Improvements project. In addition to the seismic upgrade, improvements include life safety, ADA and code mandated upgrades, central plant replacement and tenant improvements throughout. Planning and design in Spring 2013; construction begins scheduled for Summer 2013; and completion scheduled for July 2015.

Upcoming Curb Ramp Construction

Van Ness & Oak, Van Ness & Hickory, 1st & Clementina, Fulton & Franklin, Franklin & McAllister

Greening & Beautification

sfdpw.org/trees

Trees

DPW plants and maintains street trees and provides median maintenance.

DPW currently maintains:*

All 111 trees in the medians along:

- Van Ness Ave.
- 8th St
- Mission St

And 3,761 trees along:

- 1st -12th Streets
- 16th St
- Bryant St
- Duboce
- Eddy St
- Ellis St
- Fell St
- Folsom St
- Franklin St
- Fulton St
- Golden Gate Ave
- Gough St
- Grove St
- Harrison St
- Howard St
- Jones St
- King St
- Larkin St
- Leavenworth St
- Market St
- Mission St
- O'Farrell St
- Otis St
- Potrero Ave
- So Van Ness Ave
- Turk St
- Valencia St
- Van Ness Ave
- Willow St

Medians

DPW maintains the landscaping on the Van Ness Ave Median; 8th and Harrison gateway; Mission and Duboce Triangle; and the planted MUNI crash barriers on Market.

DPW issued 54 permits to property owners to plant or remove trees in District 6.

Sidewalk Landscapes

DPW issued 3 permit to a property owner for sidewalk landscaping in District 6 since July.

*Starting Fiscal Year 2011-12, in order to standardize maintenance responsibility of trees, DPW will begin transferring stewardship of some trees to property owners. Visit our website for more information.
